The Republicans of the Ninth congres-Bional district this mornitg elected Charles H. Hackley, of Muskegon, and Fred A. Dieerns, of Cadillac, delegates to the national convention. No resolutions of any kind, instructive or otherwise, were adopted.

DEMOCRATIC ROW IN NEBRASKA.

Congressman Bryan and Governor Boyd Al-

most Come to Blows-Chicago Delegates. OMAHA, Neb., April 14.-The fight between the Boyd and Martin factions in the Democratic State convention was continued all night before the committee on credentials. After a brief respite thestruggle was renewed in committee at 8 A. M., and the convention, which adjourned till 9 o'clock, was kept waiting all the morning by the failure of the credentials committee to agree. At 11:45 Chairman Beatty called the convention to order, and the committee on credentials reported in favor of seating the Boyd delegations from Douglas, Cheyenne, Cumming and Hitchcock counties. A motion to adopt the committee report was amended by one to seat the Martin delegates, and then the final struggle for supremacy began. County Attorney Mahoney spoke for thirty minutes in favor of the Martin faction, and Charles Offit presented the Boyd case. At the conclusion of Offut's remarks the roll-call was proceeded with, and the Boyd faction came off victorious by a vote of 300 to 57. A resolution indorsing Cleveland and instructing the delegates to the national convention to vote for him was presented. An amendment was made eliminating the instructions of the delegation, and the resolution was then passed. The committee on resolution was then appointed, and a recess taken. Congressman Bryan proved to be the only free-coinage man on the committee. As a result there were two reports.

When the convention reassembled, at 3 o'clock, the election of delegates was begun, resulting in the selection of Gov. James E. Boyd, W. H. Thompson, Tobias Castor and Milton Doolittle as delegates at large. The committee on resolutions then reported, a minority report being presented by Congressman Bryan.

The platform reaffirms the principles of Democracy as promulgated by Jefferson and executed by Jackson and Tilden; declares a steadfast adherence to the declarations and principles of the party as laid down in the platform of 1884 and in "that sterling message" to Congress by that fearless Democrat, Grover Cleveland; denounces the McKinley bill as a law passed by a Republican Congress for the perpetuation of a system of taxation whose direct and immediate object is to rob the many for the benefit of the few: pronounces against class legislation; favors liberal pensions to old soldiers; favors the regulation of railroads and rates by the State, and invites support from all sub-

scribing to its provisions. When Bryan offered an amendment favoring free coinage the second tight was precipitated and a wordy wrangle ensued, in which decidedly personal remarks were passed. After a tuesle of four hours a vote was finally reached, but the secretaries disagreed on the tally, one claiming the resolution had passed, the other that it had not. Upon a second vote the resolution was defeated by a majority of 18. Then pandemonium broke loose. The silver men made a rush for the stage, and, mounting the reporters' table, they shricked that they were beaten by fraud. Fifty men were struggling on the platform at one time, but finally quiet was restored, and the result of the vote as announced was verified. During the debate Bryan declared he was for Boies. Immediately after the vote was announced Bryan and Governor Boyd met, and there was a wordy war which nearly led to blows. The two men who have wrested Nebraska from Republicanism have openly stated that they will light each other from this time on. The convention adjourned

to-night. The delegates from the various congressional districts held caucuses and selected the following district delegates to the Chicago convention: Robert Clegg, N. S. Har-wood, John Creighton, Charles Ogden, J. P. Latta, T. Hale, Matt Miller, C. F. Cook, R. A. Batty, F. H. Spearman, J. F. Crocker and J. H. Dahlman, The majority of these delegates are Boyd men, and were against instructing for Cleveland. The result of the convention is to split the Democratic party of the State. Representative Bryan claims, and his claim is supported by one of the secretaries, that his resolution carried by eight majority, and that he was deliberately counted out. Much bad blood has been stirred up, and Democratic unity is endangered.

## SIMPSON IS CONFIDENT.

Thinks He Will Be Returned to Congress Because He Has Made a "Reputation."

Special to the Indianapolis Journal. WASHINGTON, April 14 .- "It's all humbug," said Congressman Simpson, after reading a dispatch that the Democrats of his district, the Seventh Kansas, had decided to nominate a straight ticket and that this destroyed any hopes that the third party may have had of returning him to Congress. "I ran against Mr. James R. Hallowell, a popular Republican, who polled more than one thousand Democratic votes. His vote was 25,181, and mine 32,608. Of course, the Alliance and the Democrats combined. There are, perhaps, in the district six thousand Democrats and should the Democrats nominate a straight ticket we have nothing to fear. Mr. Hallowell will not be a candidate again, and since the last election the strength of my party in the district has grown fully 20 per cent. The same may be said of it throughout the ry. This ferry, together with the State. Then, too, I came here without any reputation. Since then I have not been idle, and I believe I am not now unknown, nor am I among my people at least un-favorably known. I am confident that I will be sent back to Congress, and I have no fears of either a straight Republican or straight Democratic ticket, nor the two combined generally. I may say the Alliance is on a grand boom. We will make large gains in the West, and it is my judgment that we will surprise the whole country in the result in the South. The Alliance will cut more of a figure in the next Congress than it does in this, I assure you."

## AT MINNEAPOLIS.

The Republican National Executive Committee Investigating Affairs. MINNEAPOLIS, April 14.-The sub-committee of the Republican national committee was in session here to-day. Those present were: A. L. Conger, of Ohio; Powerl Clayton, of Arkansas; H. C. Payne, of Wisconsin; H. S. Hyde, of Massachusetts, and R. G. Evans, of Minnesota. Chairman Clarkson was not present, as he is still nursing his inflammatory rheumatism at Hot Springs, Ark. The other absentees were: Campbell, of Illinois; Scott, of West Virginia; De Young, of California; Fessenden, of Connecticut. There was also present Sergeant-at-arms Meek and Architect Adler, of Chicago. The committeemen reviewed the work of the local convention committees. Reports of work already done and outline of plans to be carried out were presented by Chairman George Brackett, of the local executive committee. The only chance for any friction is over the distribution of tickets to the hall. So far the committee has kept the control of tickets in its own hands. This afternoon the committee visited the

Why Certain Politicians Are Not Likely to Ask the President to "Withdraw."

Special to the Indianapolis Journal. WASHINGTON, April 14 .- All sorts of reports have been current about Washington for several weeks as to some possible plan of opposition to the renomination of President Harrison, upon which leaders of the Republican party, both within and without Congress, who are dissatisfied with the distribution of patronage by this administration, and therefore desire a change, might unite. The latest form which these lying reports has assumed is that several apolis.

Republican Senators who are classed as "anti-administration" Republicans have agreed upon the form of a letter to be addressed to the President requesting him, in the interest of party harmony and success at the polls, to declare that he will not accept a renomination. This story carries with it its own contradiction. It has, however, been given such wide circulation as

to deserve attention. It may be stated again, in the most positive way, that President Harrison is not a "candidate" for renomination in the sense that he is working for that honor, which so large a porserves. This very fact makes it impossible that there could be, upon the part of any of those who for conscientious or other motives oppose him, an intention to ask him to withdraw from the field. If President Harrison is in the field at all it is because of the force of events. He cannot withdraw because he is not an intruder. It has always been perfectly understood that the one desire of both President Harrison and Secretary Blaine was to see nominated at Minneapolis a Republican candidate who would be elected. Hence any expression asking his "withdrawal" would be as needless as absurd. This statement is made upon the statement of one of the "anti-administration" Senators.

North Carolina Republicans. RALEIGH, N. C., April 14 .- The State Republican convention met to-day at noon, and was called to order by John B. Eaves. enairman of the State executive committee. In addressing the convention Mr. Eaves referred to the Alliance movement in the Democratic ranks, and predicted that the Republican party would give the Democrats a close contest in the State in the coming campaign. At the conclusion of Mr. Eaves's speech he announced as temporary chairman of the convention the name of James H. Young, colored, collector of the Port of Wilmington, who took the chair and addressed the convention. Nearly all the counties in the State are represented in the convention.

Florida Instructs for Harrison. JACKSONVILLE, Fla., April 14.-The Republican State convention was in session all night, and finally elected delegates at large to the Minneapolis convention. They are instructed to vote for Benjamin Harrison for President as long as his name appears before the convention. The McKin-ley bill is indersed, and regret is expressed that the force bill was not passed. The Democratic election law in Florida is spoken of in bitter terms, as dishonest and tyrannical, and the platform closes by declaring that, in view of the present ballot-box law, it is deemed useless to place any Republican ticket in the field this year, either national, congressional or State. The convention then adjourned.

Slow in Getting to Work. ATLANTA, Ga., April 14.-The Republican convention of Georgia met at noon to-day. with J. W. Lyons, of Augusta, as temporary charman. It has been in session all day, and at 10:30 to-night has not yet secured a permanent organization. There was a long fight over the report of the committee on credentials, which was finally adopted. Then R. D. Locke, of Macon, and J. M. Lyons, of Augusta, were nominated for permanent chairman. There has been no election as yet.

Six Votes for Hill. CHEYENNE, Wyo., April 14.-The Wyoming Democratic State convention, which met at Douglas yesterday, adjourned at noon to-day. Six delegates and six alternates were elected to the Chicago convention. The delegation was uninstructed, but generally favors D. B. Hill for Presi-

The Republicans of the Eighteenth Pennsylvania district yesterday elected delegates to Minneapolis. Instructions for Harrison were laid on the table.

The State Republican convention of Washington met yesterday for the purpose of nominating delegates to the Minneapolis convention, but did not conclude its work. The State executive committee of the Georgia State Alliance has unanimonaly

passed a resolution demanding that Alliauces which have indorsed the People's party movement must resoind such action promptly or surrender their charters. Chicago is having much trouble over the Democratic national convention wigwam. The property-owners on the lake front now demand a deposit of \$15,000, to insure the removal of the structure after the con-

vention is over. No work will be permitted until the money is raised. Ex-Secretary of the Navy William C. Whitney, who started on a six weeks' trip to Europe Wednesday, said before his departure that, despite the present dissenalons in the ranks of Democracy, he believed that before long Cleveland would have the undivided support of the party. He thinks the situation now is like it was just before Tilden was nominated.

## THREW OUT THE HEATHEN.

Austin Corbin Objects to Chinese Riding in His New York Ferry-Boats.

LONG ISLAND CITY, L. I., April 14.-Austin Corbin, the millionaire railroad president, started to-day from New York to his office in the Long Island railroad depot, on the ferry-boat Sag Harbor, the Thirty - fourth - street for-James-street ferry, was recently purchased by Mr. Corbin's railroad. When Mr. Corbin boarded the Sag Harbor he went into the women's cabin, and there found a Chinese occupying one of the seats. Corbin did not relish this, and sent for one of the deck-hands. The railroad president said a few words to his employe, and the latter advanced to the Chinese and ordered him out. The Chinese protested, saying that he had paid his 3 cents and was entitled to his ride. Mr. Corbin then ordered him removed, which the deck hands promptly did. The Chinese claims to be as good as any other man, and will bring suit for damages.

Threw Herself from a Hospital Window.

NEW YORK, April 14.-Mrs. Mary Lee, a handsome young woman from South Carolina, committed suicide in a lying-in hospital in this city this afternoon. The young woman has been in the hospital for several months. In her deand to-day in the presence of the nurse she threw herself from the fourth-story window of the hospital. Her skull was fractured and death was instantaneous. At the hospital little is known of her history. Her husband is not known, and her beauty. accomplishments and refined manner create the suspicion that the girl was the victim of some unscrupulous villain.

Assignment of an Insurance Company. St. Paul, Minn., April 14.-The German Fire Insurance Company made an assignment, this afternoon, for the benefit of creditors, on account of insufficient business. The St. Paul German Accident Insurance Company is in no wise affected by the failure, being well established and paying, its last dividend having been declared only three weeks ago.

GERMANS GROWING JEALOUS

Do Not Like to See Uncle Sam Enjoying Exclusive Commercial Privileges.

Santo Domingo Forced to Grant Reciprocity to the Kaiser's Subjects-Kesignation of the Italian Ministry.

BULLDOZED BY GERMANY. Santo Domingo Compelled to Open Her

Doors to German Manufacturers. BERLIN, April 14.-An incident which has just occurred here is indicative of the growing German jealousy of American influence in Spanish-American commercial affairs. Germany, after long continued efforts, at last succeeded in the attempt to coerce the government of Santo Domingo into granting to her the same commercial privileges as those enjoyed by the United States. Mr. Phelps, the American minister to Germany, unofficially spoke to Baron Marschall Von Bieberstein, the Secretary of State for Foreign Affairs, in favor of Santo Domingo, and the result was to call forth a torrent of adverse criticism from the German press. The newspapers, in their comments on the matter, construe the action of Minister Phelps into what they are pleased to term "American overbearance," and all the editorial utterances are in a similar strain. The evening papers contain articles in which the subject is dealt with at considerable length, and in which there are many spiteful flings at the United States government. Minister Phelps, in stating the object of his interview with Baron Von Bieberstein,

assured the Secretary that he came to him spontaneously, and not by any instructions he had received from Washington. In protesting against the action of the German government, he said that it was ungenerous for a great power like Germany to force a little country like Santo Domingo to conclude treaties with the German government against the will of the United States Baron Von Bieberstein, in replying to

Minister Phelps, said he was not aware that the United States government exercised a protectorate over Santo Domingo, but that, nevertheless, Germany only claimed rights in regard to the matter in question which were already recognized.

GAVE UP THEIR PORTFOLIOS. Resignation of the Italian Ministry-Rudini

Will Select Another Cabinet. ROME, April 14.—Owing to differences that arose at the last three Cabinet councils over the financial measures to be submitted to Parliament, the whole Ministry tendered their resignation to King Humbert to-day, and they were accepted. The King has charged the Marquis Di Rudini, the Prime Minister, to reconstruct the Cabinet. No change in the ministerial programme is expected, except that the Marquis Di Rudini proposes to insist more strongly upon the government's financial

proposals. The immediate cause of the Italian crisis appears to be that the Minister of War. General Pellouck, insisted on additional allowance of 18 .-000,000 francs for repeating rifles and the reorganization of the artillery. Admiral Pacoret di Sanbou, Minister of the Navy, asked for 8,000,000 france for fast cruisers. So far as the request of the Minister of the Navy is concerned, no attention seems to have been paid to it, and only 14,000,000 francs were granted to the War Office. This sum it was proposed to raise by economy in other directions, but the Finance Minister, Signor Columbo, insisted that new taxes should be levied to meet the extra expenditure. This caused a division in the Cabinet, and the retirement of all but the Premier. It is conceded that the Marquis di Rudini has a large personal following, but it is admitted, nevertheless, that the task he has before him is a most difficult one.

GENERAL FOREIGN NEWS.

Mrs. Montague, Like Mrs. Osborne, Doesn't Want Her Child Born in Prison. DUBLIN, April 14. - A movement is on foot to obtain the release of Mrs. Annie Margaret Montague, who a few days ago was sentenced to a year's imprisonment for causing the death of her three-year-old daughter. The request for her release will be based upon the reported decision to liberate Mrs. Florence Ethel Osborne, sentenced to nine months' imprisonment in London in connection with the great 'pearl case." Mrs. Osborne, it is said, as to be released prior to her accouchement, which is expected shortly, thus saving her child from the disgrace of being born in prison. Mrs. Montague is also in a delicate condition, and expects to be confined shortly. She is so prostrated that the authorities have not been able to remove her from the Dublin detention prison to the ordinary prison at Londonderry, where she was to have served her sentence.

Mother and Son Beheaded.

Berlin, April 14. - A woman named Kruse, convicted of the murder of her husband, and her elder son, Wilhelm, who was an accomplice in the murder, were executed at Dortmund to-day. The prisoners confessed the murder, saving that they were weary of keeping the victim because he was unfit for work. Wilhelm, being unable to walk, was partly carried to the scene of execution. and submitted quietly. His neck having been bared, and the head having been adjusted on the block, the executioner severed the head from the body with a single sweep of the ax. The corpse was then put in a coffin. The scaffold was immediately sluiced with water, preparatory to the next execution, and, when everything was ready, the woman was led out. She walked firmly to the block, and placed her head where she was told to, and in a few seconds the execitioner had finished his ghastly work. The bodies were at once removed.

Believed Himself to Be the Messiah. HONOLULU, April 14.-Antonio Gaspenardo, a half-caste Greek, residing at Kancope. Hawaii, has murdered his wife and a native hospital nurse. Gaspenardo for two years past has been in possession of the idea that he was the Messiah, and could restore the dead to life. His conduct led to the asylum authorities sending a nurse to make arrangements with Garpenardo's wife for his incarceration. When Gaspenardo came home he found them at the table, and it is supposed from the location of the bodies that the assassin came into the room qui etly and dealt the native a blow which crushed her skull. Then, to silence the screams of his wife, who evidently ran into the next room to escape the fury of the lunatic, Gaspenardo first dealt her a blow and afterwards mutilated her body with a

The tirman of investiture was read by an official, who also read a telegram from the Sultan conferring upon the Khedive the administration of the Sinai peninsula. Upon the conclusion of the reading the assembled troops thrice sainted the Sultan and a band played the Turkish anthem. After this the troops saluted the Khedive three times and the Egyptian anthem was played. Then a salute of 102 guns was fired.

TRAIN "HELD UP,"

And \$3,000 Taken from the Express Car by Three Daling Robbers.

NEW ORLEANS, La., April 14.-A daring

and successful train robbery was committed to-night within seventy-seven miles of this city. The amount carried by the railroad is said by them to be small, and hardly commensurate with the great risks incurred. Passenger train No. 2 of the Illinois Central road, north-bound, left the city at the usual hour this evening. It was in charge of engineer James and Conductor Robertson. The train proceeded on its way north without incident, and such a thing as a robbery was not thought of, and least of all apprehended. When the train reached Hammond station a man boarded the engine. To the surprise of the engineer and fireman the uninvited passenger thrust into their faces a big pistol. The railroad men were ordered to go ahead. The command was obeyed reluctantly, but with seeming good grace. Passenger train No. 2 was scheduled to meet No. 3 at Independence, and to take the siding at that point. To this little station, therefore, the engineer piloted his train of human freight. When No. 2 reached Independence the siding was taken, and the switch barely locked when the southward-bound train came thundering along. It 18 not customary for trains to stop at meeting-points and the south-bound train sped on its way to New Orleans without the slightest knowledge that the train which they left behind was about to be robbed. The south-bound train had scarcely flitted by when the two men confederates of the individual on the engine stepped nimbly aboard and joined their ard." The engineer was ordered reverse the engine, and at "pard." Newsom's mill, about seventy-seven miles from the city, was told to come to a halt. The engineer and fireman were then used by the robbers as a parleying party, and were instructed to go to the express car and to order the messenger to open his car, which was complied with. An entrance into the car which bears the treasury of the express company as well as that of the United States was then effected by the robbers. The safe was emptied of its contents. Having completed their work the knights of the road disappeared in the darkness, leaving the mails and the passengers undisturbed. The train went on its way north, and when it reached Tangipaho the news was telegraphed back to this city. Superintendent Fisher, of the express company, said that the amount carried off

by the train-robbers would hardly exceed \$3,000, in his opinion. The robbery occurred at 8:40 P. M. The Negro's Right to Stay.

Northwestern Christian Advocate. In Albany, N. Y., Professor Jenks of Cornell University, lectured before the university extension center, April 7 on the race problem. He said that history and science seemed to show that the negro is an inferior race and incapable of advanced civilized self-government. Professor Jenks thinks the best plan would be to encourage the negro to emigrate to the most fertile part of Africa. The negro will presently begin to think that "advanced civilized governments" are rather overdoing the matter of "encouraging" him to migrate. Some time before Professor Jenks's ancestors emigrated to this country the negro was not only encouraged but torcibly inof Africa" and accept residence on this continent. He has been here-the negro, not Professor Jenks-for more than two centuries. He has tilled our soil, been cheated out of his just wages, and has fertilized the land with his sweat and blood. This university extension lecturer now makes about the most heartless suggestion to which we have listened. If there is a race on the continent that has an unquestionable right to stay here it is the African negro. To seek to encourage him to "emigrate" is almost as much a wrong as to attempt to make him go by force.
